The Disciple Program is a beginning leadership experience. Youth must make a commitment of at least 3 weeks, but may serve for more. Youth will experience serving as helpers to the counselors and program staff, will plan program events and participate in mission projects. The Disciples have their own Bible Study time apart from the campers and staff daily, as well as other opportunities for interaction as a group throughout the summer. This program is designed to challenge youth to grow spiritually, learn to serve others and be young men and women of good character. Youth may stay in this program a maximum of three years.

- **Acceptance into the program is determined through an application and interview process.**
- **To start the process, the youth must contact Carson-Simpson Farm themselves and request an application packet. Applications must be returned to the camp by April 1.**
- **A mandatory training event is scheduled for May 18 and 19 for those who have completed all of the application process.**
